11. Air Quality	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12. Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

#### Purpose of Inspection:

Check the site to view areas that were starting to erode, noted during our last visit.

#### Directions to Site:

See previous inspection memo.

#### Inspection Summary:

##### 6. Concurrent Reclamation.

The annual report filed with the Division indicated that a 1 acre area had been replanted and harrowed. I was unable to discern where this work had taken place. The area that had been noted as showing some instability due to some erosion. The eroded areas noted previously still exists, although it does not appear to be any worse than when it was originally noted.

The site has been inactive for some time, some vegetation has begun to show, but at this time is not sufficient to consider release of the site.

#### Conclusions and Recommendations:

I will continue to monitor the site when I am in the area.
